AYOKANMI ODUNAYO OGUNYEBI

Frontend Developer

Akure, Nigeria   yokanm   ogunyebiayokanmi@gmail.com   09169665879

ABOUT

Highly motivated and technically proficient Frontend Developer with a strong foundation in modern web technologies, including React, Next.js, and TypeScript. Eager to leverage a robust skill set in building responsive, user-centric interfaces and contributing to innovative fintech solutions within dynamic environments like the Interswitch Developer Program. Possessing a unique analytical perspective from a Building Construction Technology background, I am committed to developing seamless digital payment experiences and driving front-end excellence.

PROJECTS

Van Life Web App

Jun 2023 - Aug 2023

Built a complete frontend application for van rental services using React, React Router, and JavaScript, focusing on seamless navigation and engaging user interfaces.

React Admin Dashboard

Mar 2023 - May 2023

Developed a comprehensive admin dashboard utilizing React, JavaScript, and CSS for dynamic UI components and interactive data visualization, demonstrating proficiency in modern frontend development practices.
