AYOKANMI ODUNAYO OGUNYEBI

Frontend Developer | React & Next.js Specialist

Akure, Nigeria | ogunyebiayokanmi@gmail.com | +234 916 966 5879
Portfolio: kanmiportfolio.netlify.app | GitHub: github.com/yokanm

---

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building production-grade web applications using modern React ecosystem. Specialized in developing responsive, user-centric interfaces with Next.js, TypeScript, and modern state management solutions. Recently delivered a full-stack e-commerce platform with authentication, complex filtering systems, and multi-step checkout flow—demonstrating capability to architect and ship complete applications independently. Strong foundation in translating Figma designs into pixel-perfect, performant implementations.

TECHNICAL EXPERIENCE

Independent Developer | Self-Employed

May 2025 - Present | Remote

Cyber-Gadget E-Commerce Platform | Live Demo | GitHub

- Architected and developed a production-grade e-commerce platform serving 200+ products across multiple categories using Next.js 15, TypeScript, and Supabase

- Implemented comprehensive authentication system with custom email/password registration, session management, and protected routes using React Context API

- Built advanced product filtering system with real-time search, dual-slider price range, brand selection, and specification-based filtering

- Developed multi-step checkout flow including address management, shipping options, payment processing, and order calculation logic

- Integrated Supabase PostgreSQL database for product catalog, user management, and order processing with RESTful API patterns

- Achieved fully responsive mobile-first design from Figma mockups without tutorial guidance, demonstrating independent problem-solving

- Implemented shopping cart and wishlist functionality with localStorage persistence and real-time synchronization
- Tech Stack: Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase, Framer Motion, Radix UI

Frontend Development Training & Projects

May 2023 - December 2024 | Self-Directed Learning

React Admin Dashboard

- Developed comprehensive admin dashboard with dynamic UI components and interactive data visualizations
- Implemented state management patterns and integrated multiple React libraries for complex data presentation
- Tech Stack: React, JavaScript, CSS, Nivo Charts

Van Life Rental Platform

- Built complete frontend application for van rental services focusing on seamless navigation and user experience
- Implemented React Router for multi-page navigation and component-based architecture
- Tech Stack: React, React Router, JavaScript, CSS

EDUCATION

Federal University of Technology Akure (FUTA)
Bachelor of Technology (B.Tech) - Building Construction Technology
September 2016 - December 2021 | Akure, Ondo State, Nigeria

National Youth Service Corps (NYSC)
Completed February 2023

TECHNICAL SKILLS

Frontend Development
React.js, Next.js 15 (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

State & Data Management

React Context API, Custom Hooks, Redux, REST API Integration, Supabase

Tools & Workflow

Git, GitHub, Vercel, Netlify, Figma to Code, VS Code, npm/Node.js

UI/UX Implementation

Responsive Web Design, Mobile-First Development, Framer Motion, Radix UI, Accessibility Standards

Currently Learning

Backend Development (Node.js, Express), React Native, AI Automation Tools

---

CERTIFICATIONS

The Frontend Developer Career Path

Scrimba | May 2023 - November 2023

Comprehensive program covering HTML, CSS, JavaScript, React, responsive design, and modern frontend development practices

---

ADDITIONAL EXPERIENCE

HNG Tech Internship

January 2025

Participated in structured tech internship program focused on real-world development workflows and collaborative coding practices

---

KEY COMPETENCIES

- Independent problem-solving and feature implementation without tutorial dependency

- Translating design mockups (Figma) into production-ready code

- Building scalable component architectures with React best practices

- Cross-browser compatibility and performance optimization

- Database integration and backend communication

- Version control and collaborative development workflows

- Self-directed learning and technology adaptation

LANGUAGES

English (Native/Fluent)
